

General Purpose Dust Remover - EU

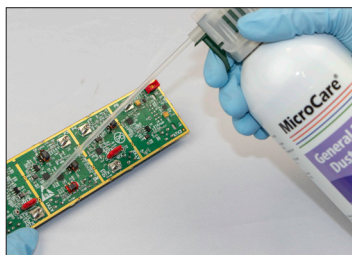

- High-pressure compressed duster
- Widely used to remove dry dust and ink from PCBs, optics, machinery, circuitry and keyboards
- Plastic-safe
- Nonflammable
- High-purity, leaves no residue
- Very economical
- Completely ozone-safe

Product Information

General Purpose Dust Remover is a high purity electronics-grade cleaner that delivers a dry blast of inert gas to hard to reach surfaces. Use to remove dust, particles and moisture from any surface.

Clean hard-to-reach areas like keyboards or pin connectors. Use to quickly pre-clean surfaces by removing layers of loose grime and dust before using a solvent cleaner. Also, use to remove slow-drying solvents from under surface mount components or on circuit boards, connectors or optics. There are literally hundreds of uses.

The trigger spray allows easy single-handed operation. Plastic-safe, nonflammable and leaves no residue.

AVAILABILITY:

Stocked by MicroCare distributors world-wide. Contact MicroCare for a distributor near you. For more information contact MicroCare directly or visit www.MicroCare.com.

Not all products and packages available in all regions and territories.

Technical Details & Cleaning Data	
Chemical Family	HFO
Evaporation Rate	Instant
Moisture Content	<10 ppm
Odour	Slight, Ether
Vapour Pressure at 20°C	61.9 PSIA
Health, Safety & Environmental Data	
Flammable	No
Organic Content (g/L)	Exempt
RoHS, WEEE and REACH Compliant	Yes
REACH Compliant	Yes
Toxicity Rating (ppm, 8hr. TWA, TLV)	800
Packaging	
Aerosol - 231 mL	MCC-DST107
TriggerGrip™ Compatible	No
Aerosol Packaging	12 cans / box
Shelf Life	Unlimited
Recycle
